Pride Rocks! Event Information

In 2021, NCCJ introduced Pride Rocks!, an event with one big goal: to reduce suicide in the LGBTQ+ community. We can prevent suicide in the LGBTQ+ community by providing meaningful and targeted education, raising awareness, and spreading messages of hope.

The event is simple. We bring community members together to:

- Paint Pride themed rocks containing messages of hope and suicide prevention
- Learn about local resources available in the community
- Eat together while enjoying local LGBTQ+ talent
- Have fun as a united community

In 2025, we successfully partnered with over 100 businesses and organizations that helped support Pride Rocks! and the local LGBTQ+ community. With over 2,500 guests joining us, we collaboratively painted rocks with mental health resources that would then be distributed throughout the Greater Dayton area throughout the month of June.

In 2026, we aim to increase our attendance, foster greater support for the LGBTQ+ community and mental health awareness. Expand partnerships with more businesses and organizations to enhance our impact, and to distribute even more mental health resources! We look forward to working together, these goals will help us continue our mission of promoting hope and reducing suicide in the LGBTQ+ community.

Thank you for your ongoing support of Pride Rocks!
